

Medical Laboratory Technology

LEARN HOW TO GET RESULTS IN THE LAB - AND IN YOUR CAREER.

This two-year degree enables you to move rapidly into well-paying jobs in a growing healthcare industry. The national average starting salary for a Medical Laboratory Technician (MLT) is \$40,000. Learn through comprehensive, hands-on skills training featuring the most up-to-date lab methods and technologies. The program includes valuable field experience in a variety of laboratory settings, including hospitals, privately owned clinics, and reference testing labs. Enter the job market with strong skills, solid work references, and top-notch preparation for professional certification exams (AAB, AMT, ASCP) and eligibility for Tennessee state licensing.

REASONS TO CHOOSE MOTLOW MLT

- Dedicated new laboratory equipped specifically for the MLT Program.
- Prepares you to perform medical laboratory procedures.
- Coursework, labs, and fieldwork cover a wide range of subject matter, including lab procedures, measures and analysis, data recording and analysis, medical computer applications, and recording and reporting results and patient charting.
- Develops basic medical knowledge in hematology, microbiology, immunohematology, immunology, and clinical chemistry.
- Teaches using specific scientific knowledge, judgment and understanding of complicated manual procedures and automated instrumentation to obtain specimen results.

MAKING IT HAPPEN AT MOTLOW

Promise and Reconnect scholarships cover tuition costs for this program. Motlow's low tuition plus financial aid opportunities help make this high-quality program very affordable. Meet personally with a Motlow financial aid advisor and discover the financial resources available to you.

FINISH STRONG

Motlow provides students access to a variety of support services to help complete their programs. Services include tutoring, faculty advising, completion coach support, and counseling - all designed to help students successfully navigate their individual college experience.

Medical Laboratory Career Opportunities

- Clinical Laboratory Technician
- Medical Laboratory Technician
- Hospital Laboratory
- Surgery Center
- Reference Laboratory

"Motlow's MLT program emphasizes the mastery of fundamental principles of clinical laboratory science and clinical pathology. Students will develop proficient technical skills required for laboratory scientists and will gain aptitudes for critical thinking and analytical problem solving. Our program uses digital-based technology enhanced learning in the curriculum and for exam preparation to prepare our graduates for successful professional certification and state licensing."

- Kim-Sue Tudor, Ph.D., MT (ASCP)
Program Director
